

ATT: Provinces, districts and clubs

CC: EXCO (FYI Only)

27 April 2020

Dear Clubs

Following a meeting with SAGF and the Technical Committees last week, just a quick note of feedback regarding Sports Clubs re-opening.

There is at present no clear guidelines for sports training facilities (only for events) as to when we will be allowed to go back to training. There has been a call for all recommendations for guidelines to be submitted and we are aware that SASCOC as well as National Federations will be submitting policies for the 12h00 deadline - Monday 27 April. The proposed SAGF policy will be circulated to all clubs once this is submitted, but again it must be noted it has to be accepted by the Ministry.

Gymnastics is however proactive and SAGF CEO is currently in discussion with the various national bodies and she will be instrumental in putting suggestions forward as to what could work for us in gymnastics, staying in line with the national guidelines. All the TC chairpersons have given their input and we are hoping that we will have answers soon as to where we stand. Obviously, the proposals will be based on trying to get us training (albeit with small numbers at a time) as soon as possible.

Will keep you updated.

Kind regards and stay safe,

SAGF National Office
